JOHN AUSTIN
Volkswagen & Audi Specialists Ltd

There are many ways to reduce your motoring costs and the starting point is the annual service. Better to head off an expensive crisis before it becomes one, right?

But, depending on how often you're driving and the distances you're covering, checking your tyre pressures and the tread is vital. It will save you money and keep you safe. If you're passing, call in and we'll give them a FREE health check.

Using your air conditioning system uses more fuel, but keeping your windows open increases drag, is very noisy, and can ruin your hair! With summer approaching, why not get your system serviced too?

To arrange your service,
please call:
